## EDUCATION

- **Bachelor of Technology (B.Tech) in Computer Science and Engineering (CSE)** *2020 - 2024*

*Maharaja Agrasen Institute of Technology (MAIT), Delhi* 9.1 CGPA

Relevant coursework: DSA, OOPS, DBMS, OS, CN

## EXPERIENCE

- **IBM** *Oct 2024 - Present*

***Dev-Ops*** **Bengaluru**

  - Automated pre-deployment and post-deployment validation checks using Python and shell scripts reducing manual verification time by 80% and improving deployment reliability.
  - Developed automation scripts in Python to detect gaps and mismatches between configuration/data in GitHub repositories and deployed servers, ensuring environment consistency and preventing drift-related issues.
  - Developed various dashboards for end-to-end observability, visualizing key metrics such as CPU usage, memory, disk I/O, and application logs to monitor system health and performance in real time.
  - **Skills acquired:** Python, Bash, Docker, Kubernetes, Ansible, Prometheus & Graphana

- **Internship at DRDO (Defence Research & Development Organisation)** *Dec 2022 - March 2023*

***Web-dev Intern*** **Delhi**

  - Worked on DSpace, an open-source repository software, to manage the digital assets of the DRDO organization.
  - Developed Institutional Repository (IR) software used for managing documents, research papers, and other assets.
  - **Technology used:** Java, JSP, XML, SQL, HTML, and CSS during the internship.
  - Learned various soft skills such as leadership, teamwork, handling pressure, and effective communication.

## PROJECTS

- **Pin It**

*Civic issue reporting platform where users can pin and report local issues on a map. Build for NGO's and people.*

  - Full-stack web application enabling users to report and visualize local civic issues on an interactive map for community engagement and municipal feedback.
  - Technology Used: MongoDB, Express, React, Node.js (MERN stack)
  - **Project Link:** https://pin-it-jade.vercel.app/ | **Github Link:** https://github.com/iamrahul25/PinIt

- **Any Connect (Oolo)**

*Real-time video chat application with WebRTC for peer-to-peer calls. Join rooms, talk, play games and connect with others instantly.*

  - Built real-time video chat with WebRTC for peer-to-peer calls; users can join rooms, communicate, and play games with low-latency connectivity.
  - Technology Used: MERN stack, Socket.io, WebRTC
  - **Project Link:** https://anyconnectfrontend.vercel.app/ | **Github Link:** https://github.com/iamrahul25/Oolo

- **FOF - (Find Old Friends)** *June 2023 - July 2023*

*A website that helps you reconnect with your long lost friends*

  - It is a full-stack web application built using the MERN stack. Users can reconnect with their childhood school friends by providing details of class name, school name, academic year and place of school.
  - Team Project - 3 Members
  - Technology Used: React.js, JavaScript, HTML, CSS, Node.js, Express.js, MongoDB
  - **Project Link:** https://fof-website.onrender.com/ | **Github Link:** https://github.com/iamrahul25/fofmern

## TECHNICAL SKILLS

| | |
|---|---|
| **Languages:** | C, C++, Java, Python |
| **Frontend Technologies:** | HTML, CSS, JavaScript, React.js, Next.js, Tailwind |
| **Backend Technologies:** | Node.js, Express.js, RESTful APIs, JWT Authentication |
| **Database Management:** | SQL (MySQL), MongoDB, Firebase |

## ACHIEVEMENTS

- **6 Stars** in Problem Solving (HackerRank) (Link)
- **650**+ DSA Questions on Leetcode (Link)
- **3 Stars** in CodeChef (Link)
- Participated in **HackVSIT Hackathon**

## CERTIFICATIONS

- **Data Structures A-Z:** Data Structures and Algorithms Bootcamp (Udemy) (Sep 2024) (Link)
- **Wipro TalentNext Java Full Stack Certification** (May 2023) (Link)
- **React (The Complete Guide)** (Udemy) (Oct 2022) (Link)
